English Qualifications

Exams for higher education

Our results reporting

Cambridge English Qualifications are based on research into effective teaching and learning. They motivate people of all ages and abilities to learn English and develop practical skills for the real world.

Choosing our exams for your admission requirements means you can specify the level of English you require and be sure of a student's level of English. Each exam focuses on a level of the Common European Framework of Reference (CEFR)*.

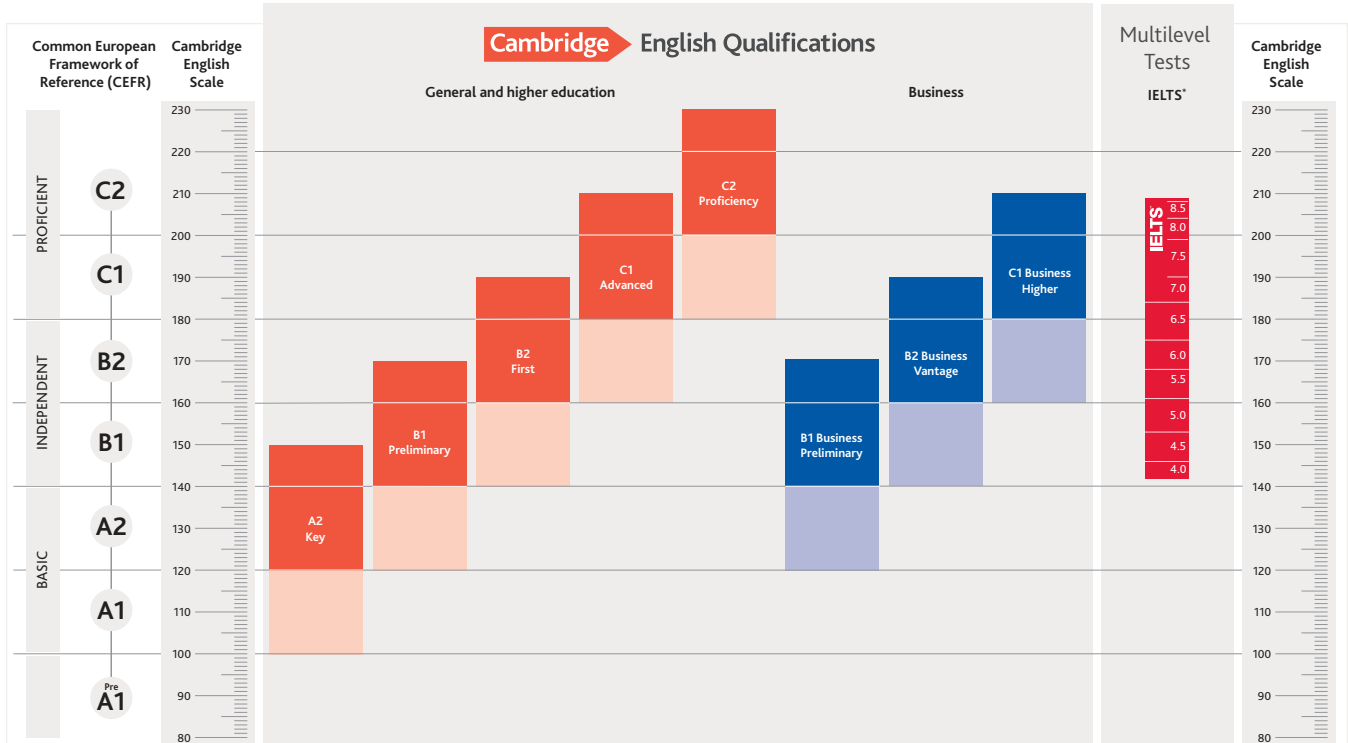

Results for Cambridge English Qualifications are reported on the Cambridge English Scale. The scale complements the CEFR and gives greater insight into candidate achievement. Candidates receive an overall score from the scale as well as a score for each skill (reading, writing, listening and speaking).

cambridgeenglish.org/institutions

* Further information about the Common European Framework of Reference (CEFR) can be found at cambridgeenglish.org/cefr.

Cambridge Assessment English

Each exam is targeted at a level of the CEFR. Results are also reported at the level above and the level below.

*IELTS is mapped to, but does not report on the Cambridge English Scale
